## WORKPLACE SAFETY:

**COSHH  
INTERACTIVE TRAINING COURSE**

## Why do I need this course?

There are many areas where COSHH can prevent accidents involving hazardous substances. This course aims to create awareness of the risks, hazards, safe handling and staff responsibilities of using hazardous substances such as chemicals, and the relevant steps to preventing incidents from occurring.

Hazardous substances can threaten our long term health. There are thousands of accidents every year involving hazardous substances. This course is designed to raise awareness of the key points in the safe handling and use of hazardous substances that could harm you or your colleagues.

## What are the benefits of the course?

The primary benefit of this course is to help employees carry out their jobs in a safe way and to identify potential risks to their health and wellbeing.

## How will the course work?

This interactive course will be delivered online to users who can study from their own computers or portable device from anywhere they choose.

The course makes use of modern illustrational graphics to ensure it remains engaging throughout, and users will also be quizzed throughout the process, testing their knowledge at certain points along the way. This will be in preparation for a compulsory self-test at the end of the training course.

Each user will receive informative advice and guidance wherever needed, and the course also features a risk checklist which asks the user a series of questions relating to their current working environment.

Upon successful completion of the course, trainees will receive a certificate which can be downloaded at no extra charge.

## Course Length:

30 minutes

## Price:

£29.00
