FIRE SAFETY:

**FIRE SAFETY: THE FACTS
TRAINING VIDEO**

Why do I need this course?

If there was a fire in your workplace, would you know what to do? This course analyses the everyday principles of fire safety and what to do in an emergency.

This course aims to give an overview of fire safety and what to do in the event that a fire occurs in your workplace.

Following the video, trainees will understand what fire safety is, know what to do if a fire is discovered, and know how to coordinate a full-scale evacuation. The course will also demonstrate how to use fire extinguishers correctly.

What's covered in each course chapter?

There are four chapters to this course which will each cover the following:

Introductions

- Introduction to fire safety
- Fire procedures and policies

What to do if you discover a fire

- What to do in the event of a fire
- Evacuation procedures
- The Fire Triangle

Using fire extinguishers (pt.1)

- Types of fire extinguishers
- Fire extinguisher etiquette

Using fire extinguishers (pt.2)

- How to use fire extinguishers
- What extinguishers to use

What are the benefits of the course?

By law, every employer is responsible for fire safety in the workplace, meaning that they have a duty of care to ensure there have been adequate risk assessments carried out prior to allowing the workforce to enter commercial premises. Furthermore, there must be a suitable and well-planned emergency strategy in place in the event a fire may occur.

This course will benefit both employers and employees, by ensuring they have the vital information they need in order to meet the requirements of fire safety law.

How will the course work?

This interactive course will be delivered online to users who can study from their own computers or portable device from anywhere they choose.

The course is delivered in video format, making use of modern illustrational graphics to ensure it remains engaging throughout.

This professionally produced video is entertaining and informative, and will offer the necessary information required to complete a risk checklist and self-test following the video.

Upon successful completion of the course, trainees will receive a certificate which can be downloaded at no extra charge.

Course Length:

25 minutes
