WORKPLACE SAFETY:

**INFECTION CONTROL
INTERACTIVE TRAINING COURSE**

Why do I need this course?

The spread of infections is a concern for every workplace, but how do we limit the risks? This course offers information that will help you implement quality methods for preventing the spread of infection in your workplace, including Healthcare Associated Infections (HCAIs) and equipment hygiene.

What's covered in each course chapter?

There are three chapters to this course which will each cover the following:

1. The Basics

- HCAIs
- How infections are caused and spread

2. Controlling & Preventing Infection

- Controlling the spread of infection
- Hand hygiene
- Using PPE
- Correct handling and decontamination of sharps

3. Reducing HCAIs

- Implementing practices to reduce HCAIs
- Asepsis
- Equipment decontamination and cleaning
- Managing waste and laundry

What are the benefits of the course?

The primary benefit of this course is to offer you the vital information required to reduce the cause of infections which, in some cases, could result in saving a life.

How will the course work?

This interactive course will be delivered online to users who can study from their own computers or portable device from anywhere they choose.

The course makes use of modern illustrational graphics to ensure it remains engaging throughout, and users will also be quizzed throughout the process, testing their knowledge at certain points along the way. This will be in preparation for a compulsory self-test at the end of the training course.

Each user will receive informative advice and guidance wherever needed, and the course also features a risk checklist which asks the user a series of questions relating to their current working environment.

Upon successful completion of the course, trainees will receive a certificate which can be downloaded at no extra charge.

Course Length:

35-40 minutes

Price:

£29.00
