# our info sheet for ...

# bio washroom cleaner

Our bio washroom cleaner combines biodegradable surfactants, water softeners, fresh fragrance and enzyme technology to leave all washroom surfaces sparkling clean.

Its naturally occurring microbes penetrate deep inside inaccessible porous surfaces to digest hidden organic matter and uric salts. It successfully performs many functions; it cleans, refreshes, eliminates organic waste build up and deodorises by destroying the source of the bad odours. Containing no less than 125 million bacteria per gram, we believe this is one of the most powerful products of its kind on the market. Scan the QR code below for more info.

#### benefits

- ✓ safe on glass and all washroom surfaces
- ✓ friendly bacteria remove odours
- ✓ microbes continue to work after application
- ✓ cleans pipes and drain lines
- ✓ citrus fresh
- ✓ reduced use of hazardous substances
- ✓ phosphate and phosphonate free
- ✓ safe in septic tanks if used as directed
- ✓ readily biodegradable
- ✓ not tested on animals

#### application and directions

Manual cleaning: apply a small amount to a damp cloth and wipe surface. For heavy cleaning spray directly onto surface, leave to stand and wipe clean. For larger surface areas such as floors, use a mop and bucket. Scale reduction: pour 20ml (neat concentrate) per night into urinals, sinks, etc.

**Pipe and drain line cleaning:** to enhance the microbial activity throughout the plumbing and drain lines pour 20ml (neat concentrate) per night into drain system. Alternatively, dispose of used mop water into drains.

#### dilution ratios

General cleaning: dilute 1 part concentrate to 25 parts water (30ml per 750ml). Odour reduction: dilute 1 part concentrate to up to 25 parts water (30ml per 750ml) or use at full strength. Adjust strength to achieve optimum fragrance level.

Proper dosage saves cost and minimises environmental impact: Delphis Eco encourage users to reduce waste going to land fill by re-filling empty trigger bottles with Bio Washroom Cleaner concentrate. Use the above dilution ratios for best results.

#### areas of usage

- wash basins and taps
- baths and showers
- toilets and urinals
- mirrors and glass
- floors and wall tiles
- stainless steel and ceramics

#### technical data

Figures are typical values and should not be used as specifications

Appearance: Viscous liquid
Odour: Orange
Colour: Blue

**Soluble** in water

**pH:** 7.0-8.0 **Specific gravity:** 1.04 g/cm3

## safe handling and storage

Full guidance on the handling and safe storage of the product can be obtained from the safety data sheet including first aid measures and health and safety requirements.

### supplier information

Product Name: Bio Washroom Cleaner Product Code: BWC050DEL01C (5ltr conc.)

Supplier: Delphis Eco, Unit 1, River Reach
Gartons Way, London SW11 3SX
