## floor maintainer

delphis  
eco

Our EU Ecolabel accredited floor maintainer is ideal for mopping, spray cleaning and mechanical cleaning. It dries to a lustre to give a long lasting finish to sealed flooring.

It can be used to enhance previously treated floors and also as a polish maintainer. Recommended for food storage areas where traditional solvent-based products would be a problem. Scan the QR code below for more info.

### benefits

- ✓ buff to a shine
- ✓ water based solution
- ✓ protective, tough coating
- ✓ pleasant fragrance
- ✓ water resistant when dry
- ✓ reduced impact on aquatic life
- ✓ reduced use of hazardous substances
- ✓ phosphate and phosphonate free
- ✓ safe in septic tanks if used as directed
- ✓ readily biodegradable
- ✓ not tested on animals

### areas of usage

Do not use on polished wood or unsealed parquet surfaces. Can be applied to the following flooring:

- hard floors
- tiles / terrazzo
- PVC and plastic
- sealed wooden parquet
- linoleum
- painted metal

### dilution ratios

**Proper dosage reduces costs and minimises environmental impact:** Using this EU Ecolabelled product according to the dosage instructions will contribute to the reduction of water pollution and waste production. Delphis Eco encourage users to reduce waste going to landfill by recycling empty bottles.

**General cleaning:** dilute 1 part concentrate to up to 50 parts water.  
**Light cleaning:** dilute 1 part concentrate to up to 80 parts water.  
**Heavy cleaning:** dilute 1 part concentrate to up to 10 parts water.

### safe handling and storage

Full guidance on the handling and safe storage of the product can be obtained from the safety data sheet including first aid measures and health and safety requirements.

### application and directions

**Spray clean:** Dilute with cold water into a spray bottle and apply directly onto surface. Machine buff with a soft buffing grade (red) floor pad until clean, dry and shiny. **Damp mop:** Dilute with cold water into a bucket and apply solution directly onto surface using a mop. **Do not** use on polished wood or unsealed parquet surfaces.

### technical data (typical values)

Appearance:	White liquid
pH-neat:	10.0 typical
Boiling point:	100°C
Flammability:	non flammable
Water solubility:	soluble
Relative Density:	1.008 typical
Viscosity:	Non-viscous
